Hi Ken and Don,

Attached above are responses to your requests for updates on the NPDES permits for the Washington federal hydroelectric generating facilities. Although we've been communicating by phone, we also wanted to respond in writing.

I'm also checking on whether you're free to talk next week or this Friday as our biweekly updates aren't on the calendar. In particular, I wanted to let you know about the development of the Columbia River temperature TMDL, likely WLAs, and how that could affect permits. Feel free to also call earlier if you'd like to know sooner rather than later. Thanks -
Jenny
